

**INTRODUCING:**

**THE STARTING  
POINT FOR  
YOUR GARAGE  
PROJECT**

**STEELCRAFT**

**CONCRETE BY  
YOUR TRUSTED  
LOCAL GARAGE  
AND CARPORT  
PROVIDER**

**CRAFTED BY US BUILT BY YOU!**

**STEEL CRAFT**

Designed for garages and carports and created by the folks who manufacture and build garages and carports, **SteelCraft Concrete** will not only be the **solid foundation** for your next project, but we will be the **one-stop shop** to complete your new garage or carport project from the ground up.

Included in each purchase of SteelCraft Concrete is **confidence** that we can complete what you need. With **years of experience** in construction, we have the unique ability of knowing what it is that your carport or garage will need to ensure **solid use for years** to come. We include an **on-site visit free of charge** with each purchase by one of our concrete specialists who will walk you through what your property will need in order to accommodate a concrete slab. We are especially aware to **keep your budget in mind** as we carefully navigate your needs in order to **keep costs down**.

SteelCraft Structures has become a **thriving provider** of carports and garages through always striving to provide the **best product available**. There will be no exception in our concrete products either. We include in all purchases of our concrete **glass fiber** that keeps your concrete more **resistant to cracking** for years to come for no additional cost. This is just another way that SteelCraft is doing it's best for you!
